

COMPARISON OF 15-INCH-CLASS LAPTOPS

We compared the Dell Inspiron 15 7590 laptop to others in its class from vendors including Acer®, AORUS, ASUS®, Chuwi, Dynabook, Fujitsu®, HP, Huawei, Lenovo®, LG, Razer™, Sager, and Samsung®. The figures below compare the systems using publicly available data. We gathered this data at the links provided on 02/03/2020, and report only what each vendor disclosed on their website. Vendors that don't appear in the table below did not offer a performance-class 15.6-inch laptop to compare. Click a system's name to visit its page on the vendor's website.

According to vendor-provided data, the Dell Inspiron 15 7590 is the lightest performance-class 15.6-inch laptop. We define performance class as having an H-level Intel processor (or better) and a discrete graphics card.

ABOUT PRINCIPLED TECHNOLOGIES

Principled Technologies, Inc.
1007 Slater Road, Suite 300
Durham, NC, 27703
www.principledtechnologies.com

We provide industry-leading technology assessment and fact-based marketing services. We bring to every assignment extensive experience with and expertise in all aspects of technology testing and analysis, from researching new technologies, to developing new methodologies, to testing with existing and new tools.

When the assessment is complete, we know how to present the results to a broad range of target audiences. We provide our clients with the materials they need, from market-focused data to use in their own collateral to custom sales aids, such as test reports, performance assessments, and white papers. Every document reflects the results of our trusted independent analysis.

We provide customized services that focus on our clients' individual requirements. Whether the technology involves hardware, software, Web sites, or services, we offer the experience, expertise, and tools to help our clients assess how it will fare against its competition, its performance, its market readiness, and its quality and reliability.

Our founders, Mark L. Van Name and Bill Catchings, have worked together in technology assessment for over 20 years. As journalists, they published over a thousand articles on a wide array of technology subjects. They created and led the Ziff-Davis Benchmark Operation, which developed such industry-standard benchmarks as Ziff Davis Media's Winstone and WebBench. They founded and led eTesting Labs, and after the acquisition of that company by Lionbridge Technologies were the head and CTO of VeriTest.
