

Features healthcare professionals need.

The Microsoft® Surface™ Pro 3 powered by Intel® offered features for everyday healthcare tasks that the Apple® iPad Air™ could not provide.

Create tasks with speech-to-text*

Pin tasks to start screen for easy-access notifications*

Print documents*

USB port for peripherals

Integrated keyboard and docking port

microSD™ slot for removable storage

Windows® semantic zoom

View multiple apps simultaneously

Organize workflow with multiple dashboards†

Search for patients from anywhere†

Mini DisplayPort for connecting monitors

Digital stylus

Encrypt Office documents with a password

✓ The Surface Pro 3 provided all of these features.

✗ The iPad Air provided none of these features.
